

Innovation @ Boehringer Ingelheim PARTNERING DAY, Lille, France

Monday, December 3, 2018

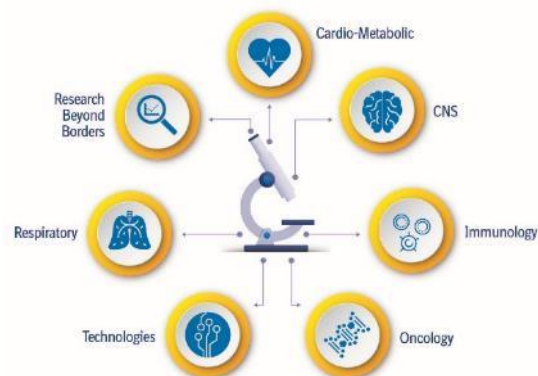

Lille Grand Palais, 1 Boulevard des Cités Unies

Fostering Innovation in France

Boehringer Ingelheim knows what it takes to be innovative and entrepreneurial: From the small factory in 1885 to today's global pharmaceutical organisation, we know how important it is to nurture and develop emerging science and technology businesses.

Our track record of bringing breakthrough medicines to patients starts with new ideas and new science, and collaborations with external partners play a key role in helping us deliver on an innovation-led portfolio. Join us at our partnering day to explore how we can develop the next generation of medicines together.

For more information on our partnering interests please visit: www.boehringer-ingelheim.com/partnering/interests
